

HOW TO START DECORATE MY NEW HOME?

I can't even count the number of times I've gotten this question: "I just moved into my new home, and I have no idea where to start!" That's because decorating a room completely from scratch is intimidating! You have no where to start and yet so many choices to make. Here are some easy points so you can start decorating your room from scratch:

1. Find a Piece of Artwork or a Rug You Love

More often than not, I'll use a piece of artwork or an Area Rug as a starting point. What I want to emphasize is the colors in the painting (rug), so that they can be used in the design - for our upholstery, pillows, and other accent pieces.

2. Inspiration Elsewhere

An inspiration tear is a great way to give your room some direction. Whether you love it for the color palette, the layout, or just the general vibe, use a room you find as a reference online or in a magazine when you're starting from scratch.

3. Choose a Color

Color can have a huge impact on the way your room feels. Every color has it's own personality, so if you find a hue that evokes the feeling you're after, choose it for your space. My to-go tip is pick neutral for walls and use color in accents and easily changeable accessories. I love pillows so I have summer pillows and Christmas Pillows:)

4. Land on a Layout

If you've got an oddly shaped room or a very small space, first decide on a layout that works in your favor. Needing specific furniture pieces will narrow your options and help you get started in the right direction. Measure twice and order once!

5. Ask for guidance

Scheduling an at-home design consultation will give you a clear picture how to start!! Finding guidance from a professional like myself is well worth it! For a couple of hundred dollars you will have a plan and some great new ideas!!!
